"I just wanted to send an email to say the guys were brilliant throughout everything. They had more knowledge and understanding of the issue than anyone else involved. They were always at the end of a call and it's very easy to deal with them and get things sorted. Just wanted to let you know that we appreciated all the help. It's been a pleasure to work with them over the last couple of months and we know we are in good hands".

- IT Manager, Kennco Underwriting

However, we do appreciate all of your efforts and we do recognise that you have made a significant contribution to the success we have had. Please pass on our gratitude to everyone involved for the long hours and hard work"
