# intellicom | infuse Conference

Delivering an Audio Conferencing Service with superior customer experience, ease of use and lowest costs

Intellicom | **infuse** Conference service is an easy to use, low cost multi-party Audio Conferencing service designed for all sizes of organisations and all types of users.

The system scales to suit your needs and each company can set up any number of personalized meeting rooms or conference groups with dedicated administrator and user PIN code access.

Access the system by dialing a local In-Country number, use the system 'on the fly' or via your Administration portal and Pay as you go with a low cost per minute usage tariff.

intellicom can provide dedicated in-country dial in numbers assigned just for you and to cover just the countries you need \*\*.

Audio conferences can also be Recorded and Played back with the click of a button via our Online intellicom | **infuse** Conference Portal \*\*.
